Product Information

For photographers seeking a flat matte surface, available in both paper and posterboard weight, EPSON Enhanced Matte Paper and EPSON Enhanced Matte Posterboard are the ideal choice. These bright white papers are perfect for images that do not require gloss. They yield highly saturated images, while maintaining excellent highlight and shadow detail. Designed primarily for use with EPSON Archival™ and DuraBrite™ inks, these versatile papers can also be used with dye-based inks. Hobbyists, professional photographers and digital artists alike will find EPSON Enhanced Matte Paper and EPSON Enhanced Matte Posterboard a remarkable solution for any project.

* Photographic dye version and archival ink version.

Features/Benefits

- Flat matte surface provides the optimum photographic platform
- Instant drying capability with EPSON Professional Inks allows for easy handling

- Heavyweight stock delivers true photographic feel (for roll paper printing)
- Card stock offers ideal format for reports and presentations
- Bright white base accentuates highlights
- EPSON Archival Ink compatibility ensures exceptional lightfastness rating

Feature Checklist

Feature	Performance	Additional Comments
Indoor/outdoor usage	Recommended for indoor use only	Paper should only be used for outdoor purposes when used with encapsulation lamination and a UV film.
Lightfastness ratings	Over 100 years under glass	Lightfastness ratings are based on accelerated testing of prints displayed indoors and under glass. Lightfastness only estimates the life of the ink on the media, not the media itself.
Ink drying time	Immediate (less than 30 seconds)	Ink is dry to the touch after printing. However, it takes 24 hours before it cures and becomes durable.
Resistance to water	Fair	Bleeding does not occur with incidental water contact. However, encapsulated lamination is recommended in wet conditions.
Lamination	Pressure sensitive on thermal	Lamination extends the life of the print and increases durability.

NOTE: Actual print stability and longevity will vary according to image, display conditions, light intensity, humidity, atmospheric conditions, and post-printing treatments. Epson does not guarantee stability or longevity. For maximum print life, display all prints under glass or lamination or properly store them. Epson warrants these products to be free from defects in manufacturing and workmanship. Epson's liability is limited to the retail cost of the product.
